~Pride in Ownership~

BUILDING PERMIT APPLICATION

All property owners upon purchasing a Timberlake lot(s) should have received a copy of bylaws, covenants and regulations from the title company that processed the legal paperwork. Your real estate person should have informed you that Timberlake Community is governed by covenants. If you should be a person who, by chance, did not receive these documents, they are available at the Timberlake office or online at www.timberlakeecc.com.

Our community is governed by these documents for the betterment and wellbeing of all. Those who violate these common rules will receive a written notice from the Architectural Committee with Board of Trustee approval. If corrective action is not taken within the allotted time, then legal action by the Board of Trustees will be forthcoming.

Each member is advised to become familiar with all applicable rules so that the application process can proceed smoothly. If we all abide by the covenants and show respect for our neighbors and pride in our community, Timberlake will be a place where we all can hold our heads up with pride and say to all, "Yes, I live at Timberlake."

Save yourself the expense and embarrassment of digging up telephone or water or power lines...

CALL FOR A LOCATE

1-800-424-5555

**CALL BEFORE YOU DIG
IT IS THE LAW – AND IT IS FREE**

There is a \$250.00 Fine if a Timberlake water line is broken without calling for a locate.
(See Policy # 04-01, A-8)

BUILDING PERMIT APPLICATION

Permits need to be submitted by the 15 th or the 30th of the month

TIMBERLAKE BUILDING PERMIT PROCEDURES

**OWNER OF RECORD MUST BE IN GOOD STANDING BEFORE
PERMITS CAN BE PROCESSED AND APPROVED**

Timberlake permits are issued to Owners of Record ONLY. If the applicant is not the owner of record, the permit will be held until the purchase is closed and completed. Permits are not transferable, not assignable and the fees are nonrefundable.

Most changes, additions, or improvements to your property will require a Timberlake and/or a Mason County Permit. Those requiring only a Timberlake permit include tree cutting, fences, and sheds or outbuildings with a dimension of less than 200 sq. ft.

However, Mason County Planning Department (Shoreline Management) must approve all planned improvements on or within 50 feet of the waterfront. This includes docks, sheds, tree removal, brush clearing, etc.

Both Mason County and Timberlake requires front, sides and rear property line setbacks. Most often, Mason County's initial setbacks differ from Timberlake and are much more restrictive. Timberlake setbacks are non-negotiable. You may apply for a setback variance from Mason County to match the Timberlake setbacks. Fences are allowed to be placed within the setback up to the property line, however, no structures such as sheds, carports and residences shall be placed within the property setbacks.

You will need to provide the following with your permit application:

Water Adequacy Form: All new residential construction, whether it is stick-built or a manufactured home, will require a Water Adequacy. Mason County will provide you with this form when you initially request a county permit. Timberlake must complete the form, then it will be returned to you for submission to Mason County for permit approval. For all owners of record subsequent to August 1, 1997 the Water Adequacy Fee is \$2,000.00. For owners of record prior to that date the Water Adequacy Fee is \$250.00. Please allow 2 full working days for completion of Water Adequacy Form. This is a non-refundable fee. (See Water Policy Regulation 04-01, Paragraph A-1.)

NOTE: If construction has not been substantially completed within 12 months of issuance of this Determination of Adequacy, verification will be withdrawn and a notification thereof will be forwarded to the Mason County Health Department.

Upon receipt of the Mason County Permit, submit the following documentation to Timberlake:

1. Copy of Mason County permit application stamped "Received".

BUILDING PERMIT APPLICATION PROCEDURES

Permits need to be submitted by the 15th or the 30th of the month

TIMBERLAKE BUILDING PERMIT

Revised 1/2/13

of

2. A plot plan showing locations of all grading, clearing and tree-cutting activities; placement of the septic system, including all components; and drainage patterns before and after project completion. The plot plan must also show the location of all structures and other changes to the lot including residences, garages and carports, sheds, fences, etc.
3. Copy of building plans showing elevations, floor and foundation plan for stick built homes.
4. Copy of septic system design, approved by Mason County, or documentation of good septic already in place on site.
5. All corners of lot, structures, and drain field must be staked prior to site inspection and final approval.
6. Flag all trees that are to remain.
7. Notify the Operations Manager when the property is staked, trees marked, etc. and ready for site inspection. If the Operations Manager has already been notified that the property is staked, etc., then the field crew will immediately proceed with the site inspection.
8. Used mobile / manufactured homes must submit current photos and proof of age along with building permit. **No mobile /manufactured homes older than 10 years** can be placed or moved within the community.
9. Submit Items 2 thru 8 to Timberlake, along with pages 4 and 5 of this application for Timberlake Permit approval.
10. Any changes requested (including setbacks) after the approval of a permit must go back through the Architectural Committee for re-approval.
11. If your application is declined, you will be notified by phone or mail in a timely manner.
12. If at any time during the project you are found to be beyond the scope of approval, a Stop Work Order will be posted at the site and a non-compliance penalty will be assessed. In addition, for any violation, Timberlake Community Club, Inc. may at its option record with the Mason County Auditor a "Declaration of Noncompliance" describing the circumstances as they reasonably appear to the association at the time of recordation.

If you have any question about obtaining a permit, or which permit(s) will be required, please contact the office for more information.

Please allow 2 – 3 weeks for processing.

CONTRACTORS: The owner/applicant agrees to inform the prime contractor, and any other contractors who have job site authority at any time, of the Timberlake Community Club, Inc. rules as they apply to

TIMBERLAKE BUILDING PERMIT APPLICATION

the project. The owner/applicant also agrees to ask for, and receive, the promise of any contractors that they will abide by the Timberlake Community Club, Inc. rules, and in particular that if a Stop Work order is posted at the project site or otherwise communicated to the owner/applicant and/or contractor, that it will be respected. Failure to comply with a Stop Work order carries consequences for the owner/applicant as specified herein, and in other related Timberlake Community Club, Inc. rules; consequences for the contractor include all available remedies at law, as well as a prohibition against the contractor from working on projects at Timberlake Community Club, Inc. for up to two years. Construction sites must be kept clean and free of debris. The 10 day rule applies.

Thank you for your cooperation.

January 2, 2013

Revised: November 17, 2015

Attn: All Timberlake Community Club, Inc. building permit applicants

The Timberlake Water Board and the Timberlake Board of Directors have approved as part of the Timberlake Cross Connection Control Program the following:

1. As of January 1, 2013, a backflow prevention assembly (a minimum of a double check valve assembly) DCVA will be required for all new construction within Timberlake Community Club.
2. All installed backflow prevention assemblies shall be approved for installation in Washington State.
 - A) Once installed the backflow prevention assembly must be inspected and tested by a certified Backflow Assembly Tester (BAT). After the initial testing and report the assembly must be tested annually and all test reports sent to Timberlake Community Club, 2880 E Timberlake Dr. W, Shelton, WA 98584.
 - B) A water turn on will not be issued until a satisfactory test report from a certified Backflow Assembly Tester is received by the Timberlake Community Club and the Timberlake Water Department.
 - C) Information on backflow assemblies and a list of backflow assembly testers is available at the Timberlake Water Department.
 - D) Timberlake members have the option of being on the Timberlake annual testing list (preferred) or hiring their own certified backflow assembly tester.
 - E) The Building Permit applicant certifies by signing below that they have completed the Cross-Connection Control Questionnaire and have read and understand the Timberlake Community Club (TLCC) requirement implemented January 1, 2013 to install and have tested (see section 2-A above) a backflow assembly (a minimum of a double check valve assembly DCVA) on any new residence within TLCC. A TLCC Building Permit will not be issued until signed below by the Building Permit applicant.
